

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

|                               |                                            |
|-------------------------------|--------------------------------------------|
| Product form                  | : Substance (UVCB)                         |
| Trade name                    | : RADIAMULS MG 2918K                       |
| IUPAC name                    | : Glycerides, C16-18 (even numbered) mono- |
| EC no.                        | : 293-208-8                                |
| CAS No.                       | : 91052-47-0                               |
| REACH registration No.        | : 01-2119492308-31                         |
| C&L notification reference no | : 02-2119692866-17-0000                    |
| Label name                    | : Monoglycerides, distilled                |

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### Relevant identified uses

|                              |                             |
|------------------------------|-----------------------------|
| Main use category            | : Industrial use            |
| Use of the substance/mixture | : Fit for use in foodstuffs |

| Title                                                          | Life cycle stage | Use descriptors                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General overview of industrial uses of glycerol fatty esters   | Industrial       | SU0, SU1, SU2a, SU2b, SU3, SU4, SU6b, SU8, SU9, SU10, SU11, SU12, SU14, SU15, SU17, SU20, SU23, PC0, PC1, PC9a, PC12, PC14, PC17, PC18, PC19, PC21, PC24, PC25, PC28, PC29, PC32, PC35, PC39, PROC2, PROC3, PROC4, PROC5, PROC6, PROC7, PROC8a, PROC8b, PROC9, PROC10, PROC11, PROC12, PROC13, PROC14, PROC15, PROC17, PROC19, PROC21, PROC24, AC10, ERC1, ERC2, ERC3, ERC4, ERC5, ERC6a, ERC6b, ERC6c, ERC6d, ERC7, ERC8a, ERC8b, ERC8c, ERC8d, ERC10a, ERC10b, ERC11a |
| General overview of professional uses of glycerol fatty esters | Professional     | SU0, SU1, SU10, SU12, SU20, SU22, PC1, PC9a, PC9b, PC17, PC18, PC21, PC24, PC25, PC31, PC32, PC35, PC39, PROC2, PROC3, PROC4, PROC5, PROC7, PROC8a, PROC8b, PROC9, PROC10, PROC11, PROC13, PROC15, PROC17, PROC19, PROC20, PROC21, PROC24, ERC2, ERC8a, ERC8b, ERC8c, ERC8d, ERC8e, ERC8f, ERC9a, ERC9b                                                                                                                                                                 |
| General overview of consumer uses of glycerol fatty esters     | Consumer         | SU21, PC0, PC1, PC3, PC9a, PC12, PC24, PC28, PC29, PC31, PC35, PC39, ERC2, ERC8a, ERC8b, ERC8c, ERC8d, ERC8e, ERC8f, ERC9a, ERC9b                                                                                                                                                                                                                                                                                                                                       |

Full text of use descriptors: see section 16

### 1.3. Details of the supplier of the safety data sheet

OLEON N.V.  
Assenedestraat 2  
BE 9940 Ertvelde  
Belgium  
T +32 9 341 10 11, F +32 9 341 10 00  
[sds@oleon.com](mailto:sds@oleon.com), [www.oleon.com](http://www.oleon.com)

## 1.4. Emergency telephone number

Emergency number : 24/7 EMERGENCY NUMBER (SGS ERS; Oleon contract nr 76858)  
+32 3 575 55 55 (worldwide); +1 888 765 6554 (USA tollfree)

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

#### Adverse physicochemical, human health and environmental effects

No additional information available

### 2.2. Label elements

#### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

No labelling applicable

### 2.3. Other hazards

Other hazards which do not result in classification : None under normal conditions.

The product does not meet the PBT and vPvB classification criteria

The substance is not included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or is not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Substance type : UVCB

| Name                     | Product identifier                                                     | %     |
|--------------------------|------------------------------------------------------------------------|-------|
| Glycerides, C16-18 mono- | CAS No.: 91052-47-0<br>EC no.: 293-208-8<br>REACH-no: 01-2119492308-31 | ≤ 100 |

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

First-aid measures general : If you feel unwell, seek medical advice.  
First-aid measures after inhalation : Remove victim to fresh air. Respiratory problems: consult a doctor/medical service.  
First-aid measures after skin contact : Wash off immediately with soap and plenty of water. If irritation persists, consult a doctor.  
First-aid measures after eye contact : Rinse immediately with plenty of water. Consult an ophthalmologist if irritation persists.  
First-aid measures after ingestion : Rinse mouth out with water. Get medical advice/attention if you feel unwell. Call a poison center ([www.who.int/ipcs/poisons/centre/directory/en](http://www.who.int/ipcs/poisons/centre/directory/en)).

## 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects : No supplementary information available.

## 4.3. Indication of any immediate medical attention and special treatment needed

No supplementary information available.

# SECTION 5: Firefighting measures

## 5.1. Extinguishing media

Suitable extinguishing media : AFFF foam. BC-powder. Carbon dioxide. Dry sand. Dry chemical powder. Use the extinguishing media recommended for the burning materials and fire situation.

Unsuitable extinguishing media : Do not use water jet.

## 5.2. Special hazards arising from the substance or mixture

Fire hazard : DIRECT FIRE HAZARD: Not easily combustible. In finely divided state: increased fire hazard. INDIRECT FIRE HAZARD: Temperature above flashpoint: higher fire/explosion hazard.

Explosion hazard : DIRECT EXPLOSION HAZARD: Fine dust dispersed in air may ignite. INDIRECT EXPLOSION HAZARD: Dust cloud can be ignited by a spark.

Reactivity in case of fire : On burning: release of carbon monoxide/carbon dioxide.

## 5.3. Advice for firefighters

Other information : No supplementary information available.

# SECTION 6: Accidental release measures

## 6.1. Personal precautions, protective equipment and emergency procedures

General measures : Mark the danger area. Prevent dust cloud formation, e.g. by wetting. Dust production: have neighbourhood close doors and windows. Exposure to fire/heat: have neighbourhood close doors and windows. In case of dust production: no naked flames or sparks. Dust: spark-/explosionproof appliances/lighting equipment.

### For non-emergency personnel

Protective equipment : See "Material-Handling" to select protective clothing.

### For emergency responders

Protective equipment : For further information refer to section 8: "Exposure controls/personal protection".

## 6.2. Environmental precautions

Prevent soil and water pollution.

## 6.3. Methods and material for containment and cleaning up

For containment : Knock down/dilute dust cloud with water spray.

Methods for cleaning up : Carefully collect the spill/leftovers. If melted: allow liquid to solidify before taking it up. Scoop solid spill into closing containers or synthetic bags. Clean contaminated surfaces with a soap solution. Flush/dilute with water.

Other information : No supplementary information available.

## 6.4. Reference to other sections

Concerning disposal elimination after cleaning, see section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Handling temperature :  $\geq 10\text{ }^{\circ}\text{C}$  above melting point

### 7.2. Conditions for safe storage, including any incompatibilities

|                              |                                                                                                                                      |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Heat and ignition sources    | : KEEP AWAY FROM: Ignition sources.                                                                                                  |
| Information on mixed storage | : KEEP AWAY FROM: Acids. strong acids. bases. strong bases.                                                                          |
| Storage area                 | : Keep container in a well-ventilated place. Store at ambient temperature. Keep out of direct sunlight. Meet the legal requirements. |
| Special rules on packaging   | : Store in a closed container. Suitably labelled. Meet the legal requirements.                                                       |
| Packaging materials          | : No supplementary information available.                                                                                            |

### 7.3. Specific end use(s)

No additional information available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No additional information available

### 8.2. Exposure controls

#### Personal protection equipment

##### Personal protective equipment:

Gloves. Protective clothing. In case of dust production: protective goggles. Dust production: dust mask with filter type P2.

##### Personal protective equipment symbol(s):

#### Eye and face protection

##### Eye protection:

Wear eye protection

#### Skin protection

##### Skin and body protection:

Wear suitable protective clothing

##### Hand protection:

Wear protective gloves

#### Other skin protection

##### Materials for protective clothing:

Good resistance: Nitrile rubber

#### Respiratory protection

##### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                                 |                                                               |
|-------------------------------------------------|---------------------------------------------------------------|
| Physical state                                  | : Solid                                                       |
| Colour                                          | : White to slightly yellow.                                   |
| Appearance (room temperature)                   | : Solid in various shapes.                                    |
| Odour                                           | : Characteristic. Almost odourless.                           |
| Odour threshold                                 | : Not available                                               |
| Melting point                                   | : $\approx 65\text{ }^{\circ}\text{C}$                        |
| Freezing point                                  | : Not available                                               |
| Softening point                                 | : ca. $65\text{ }^{\circ}\text{C}$ (63-69)                    |
| Boiling point                                   | : $> 250\text{ }^{\circ}\text{C}$                             |
| HMIS Flammability                               | : Not available                                               |
| Explosive properties                            | : Predicted negative.                                         |
| Lower explosion limit                           | : Not applicable                                              |
| Upper explosion limit                           | : Not applicable                                              |
| Flash point                                     | : $220\text{ }^{\circ}\text{C}$ (ASTM D92)                    |
| Auto-ignition temperature                       | : $> 300\text{ }^{\circ}\text{C}$                             |
| Decomposition temperature                       | : Flash point                                                 |
| pH                                              | : 5 – 8                                                       |
| pH solution                                     | : Not available                                               |
| Viscosity, kinematic                            | : $\approx 16\text{ mm}^2/\text{s}$ ( $100^{\circ}\text{C}$ ) |
| Viscosity, dynamic                              | : $\approx 33\text{ cP}$ ( $75^{\circ}\text{C}$ )             |
| Solubility                                      | : Not available                                               |
| Partition coefficient n-octanol/water (Log Kow) | : Not available                                               |
| Partition coefficient n-octanol/water (Log Pow) | : $> 5$ (estimated value)                                     |
| Vapour pressure                                 | : $< 0.01\text{ hPa}$ ( $20^{\circ}\text{C}$ )                |
| Vapour pressure at $50\text{ }^{\circ}\text{C}$ | : Not available                                               |
| Density                                         | : $\approx 0.95\text{ g/cm}^3$                                |
| Relative density                                | : Not available                                               |
| Relative vapour density at $20^{\circ}\text{C}$ | : Not applicable                                              |
| Particle size                                   | : Not available                                               |
| Particle aggregation state                      | : Non-nano particles                                          |

### 9.2. Other information

#### Other safety characteristics

|                  |                                                                              |
|------------------|------------------------------------------------------------------------------|
| VOC content      | : $< 1\%$ (1999/13/EC; 2004/42/EC; 2010/75/EU; SR 814.018)                   |
| Other properties | : Soluble in oils/fats, Soluble in most organic solvents, Insoluble in water |

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

On burning: release of carbon monoxide/carbon dioxide.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

No additional information available

#### 10.4. Conditions to avoid

No supplementary information available.

#### 10.5. Incompatible materials

No supplementary information available.

#### 10.6. Hazardous decomposition products

No supplementary information available.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity (oral) : Not classified  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

#### RADIAMULS MG 2918K (91052-47-0)

|               |                        |
|---------------|------------------------|
| LD50 oral rat | > 5000 mg/kg Non-toxic |
|---------------|------------------------|

Skin corrosion/irritation : Not classified  
pH: 5 – 8  
Serious eye damage/irritation : Not classified  
pH: 5 – 8  
Respiratory or skin sensitisation : Not classified  
Germ cell mutagenicity : Not classified  
Carcinogenicity : Not classified  
Reproductive toxicity : Not classified  
STOT-single exposure : Not classified  
STOT-repeated exposure : Not classified  
Aspiration hazard : Not classified

#### RADIAMULS MG 2918K (91052-47-0)

|                      |                                 |
|----------------------|---------------------------------|
| Viscosity, kinematic | ≈ 16 mm <sup>2</sup> /s (100°C) |
|----------------------|---------------------------------|

#### 11.2. Information on other hazards

##### Endocrine disrupting properties

Adverse health effects caused by endocrine disrupting properties : The substance/mixture has no endocrine disrupting properties.

### SECTION 12: Ecological information

#### 12.1. Toxicity

Ecology - general : The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.  
Ecology - air : No supplementary information available.  
Ecology - water : No data available concerning bioaccumulation  
Hazardous to the aquatic environment, short-term (acute) : Not classified

Hazardous to the aquatic environment, long-term (chronic) : Not classified

## 12.2. Persistence and degradability

### RADIAMULS MG 2918K (91052-47-0)

|                               |                    |
|-------------------------------|--------------------|
| Persistence and degradability | Rapidly degradable |
|-------------------------------|--------------------|

## 12.3. Bioaccumulative potential

### RADIAMULS MG 2918K (91052-47-0)

|                                                 |                       |
|-------------------------------------------------|-----------------------|
| Partition coefficient n-octanol/water (Log Pow) | > 5 (estimated value) |
|-------------------------------------------------|-----------------------|

## 12.4. Mobility in soil

No additional information available

## 12.5. Results of PBT and vPvB assessment

### RADIAMULS MG 2918K (91052-47-0)

The product does not meet the PBT and vPvB classification criteria

## 12.6. Endocrine disrupting properties

Adverse effects on the environment caused by endocrine disrupting properties : The substance is not included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or is not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

## 12.7. Other adverse effects

### RADIAMULS MG 2918K (91052-47-0)

|                   |                                        |

# SECTION 13: Disposal considerations

## 13.1. Waste treatment methods

|                                           |                                                                                                                                                            |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal                                  | : Scoop solid spill into closing containers, Powdered: do not use compressed air for pumping over spills, Clean contaminated surfaces with a soap solution |
| Regional waste regulation                 | : No supplementary information available.                                                                                                                  |
| Ecological waste information              | : Do not discharge into drains or the environment. Remove to an authorized waste treatment plant.                                                          |
| European List of Waste (LoW, EC 2000/532) | : No supplementary information available                                                                                                                   |

# SECTION 14: Transport information

In accordance with ADR / IMDG / IATA / ADN / RID

| ADR                                 | IMDG | IATA | ADN | RID |
|-------------------------------------|------|------|-----|-----|
| <b>14.1. UN number or ID number</b> |      |      |     |     |
| Not regulated for transport         |      |      |     |     |

| ADR                                     | IMDG          | IATA          | ADN           | RID           |

| Not regulated                           | Not regulated | Not regulated | Not regulated | Not regulated |
| Marine pollutant: no                    |               |               |               |               |

#### 14.6. Special precautions for user

##### Overland transport

Not regulated

##### Transport by sea

Not regulated

##### Air transport

Not regulated

##### Inland waterway transport

Not regulated

##### Rail transport

Not regulated

#### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU-Regulations

##### REACH Annex XVII (Restriction List)

Not listed on REACH Annex XVII

##### REACH Annex XIV (Authorisation List)

Not listed on REACH Annex XIV (Authorisation List)

##### REACH Candidate List (SVHC)

Not listed on the REACH Candidate List

##### PIC Regulation (Prior Informed Consent)

Not listed on the PIC list (Regulation EU 649/2012)

### POP Regulation (Persistent Organic Pollutants)

Not listed on the POP list (Regulation EU 2019/1021)

### Ozone Regulation (2024/590)

Not listed on the Ozone Depletion list (Regulation EU 2024/590)

### Council Regulation (EC) for the control of dual-use items

Not listed on the COUNCIL REGULATION (EC) of dual-use items.

### VOC Directive (2004/42)

VOC content : < 1 % (1999/13/EC; 2004/42/EC; 2010/75/EU; SR 814.018)

### Explosives Precursors Regulation (EU 2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

### Drug Precursors Regulation (EC 273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

### National regulations

|                          |                                                                                                                                              |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Related CAS RN           | : 31566-31-1                                                                                                                                 |

| PC31   | Polishes and wax blends                                                                                                                                              |
| PC32   | Polymer preparations and compounds                                                                                                                                   |
| PC35   | Washing and cleaning products                                                                                                                                        |
| PC39   | Cosmetics, personal care products                                                                                                                                    |
| PC9a   | Coatings and paints, thinners, paint removers                                                                                                                        |
| PC9b   | Fillers, putties, plasters, modelling clay                                                                                                                           |
| PROC10 | Roller application or brushing                                                                                                                                       |
| PROC11 | Non industrial spraying                                                                                                                                              |
| PROC12 | Use of blowing agents in manufacture of foam                                                                                                                         |
| PROC13 | Treatment of articles by dipping and pouring                                                                                                                         |
| PROC14 | Tabletting, compression, extrusion, pelettisation, granulation                                                                                                       |
| PROC15 | Use as laboratory reagent                                                                                                                                            |
| PROC17 | Lubrication at high energy conditions in metal working operations                                                                                                    |
| PROC19 | Manual activities involving hand contact                                                                                                                             |
| PROC2  | Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions                 |
| PROC20 | Use of functional fluids in small devices                                                                                                                            |
| PROC21 | Low energy manipulation and handling of substances bound in/on materials or articles                                                                                 |
| PROC24 | High (mechanical) energy work-up of substances bound in /on materials and/or articles                                                                                |
| PROC3  | Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition |

### Full text of use descriptors

|        |                                                                                                         |
|--------|---------------------------------------------------------------------------------------------------------|
| PROC4  | Chemical production where opportunity for exposure arises                                               |
| PROC5  | Mixing or blending in batch processes                                                                   |
| PROC6  | Calendering operations                                                                                  |
| PROC7  | Industrial spraying                                                                                     |
| PROC8a | Transfer of substance or mixture (charging and discharging) at non-dedicated facilities                 |
| PROC8b | Transfer of substance or mixture (charging and discharging) at dedicated facilities                     |
| PROC9  | Transfer of substance or preparation into small containers (dedicated filling line, including weighing) |
| SU0    | Other                                                                                                   |
| SU1    | Agriculture, forestry, fishery                                                                          |
| SU10   | Formulation [mixing] of preparations and/or re-packaging (excluding alloys)                             |
| SU11   | Manufacture of rubber products                                                                          |
| SU12   | Manufacture of plastics products, including compounding and conversion                                  |
| SU14   | Manufacture of basic metals, including alloys                                                           |
| SU15   | Manufacture of fabricated metal products, except machinery and equipment                                |
| SU17   | General manufacturing, e.g. machinery, equipment, vehicles, other transport equipment                   |
| SU20   | Health services                                                                                         |
| SU21   | Consumer uses: Private households (= general public = consumers)                                        |
| SU22   | Professional uses: Public domain (administration, education, entertainment, services, craftsmen)        |
| SU23   | Electricity, steam, gas water supply and sewage treatment                                               |
| SU2a   | Mining, (including offshore industries)                                                                 |
| SU2b   | Offshore industries                                                                                     |
| SU3    | Industrial uses: Uses of substances as such or in preparations at industrial sites                      |
| SU4    | Manufacture of food products                                                                            |
| SU6b   | Manufacture of pulp, paper and paper products                                                           |
| SU8    | Manufacture of bulk, large scale chemicals (including petroleum products)                               |
| SU9    | Manufacture of fine chemicals                                                                           |

The classification complies with : ATP 12

SDS EU Oleon Annex II

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
